

AI-Powered CRM Project Requirements

Project Title

Smart AI CRM System with Sales, Marketing & Customer Automation

Project Overview

Develop an AI-powered Customer Relationship Management (CRM) platform similar to Zoho CRM that helps businesses manage leads, customers, sales pipelines, marketing campaigns, support tickets, and business analytics through intelligent automation and AI-driven insights.

Core Modules

1. User Management

Features

- Role-Based Access Control (Admin, Manager, Employee)
 - Multi-user login
 - Department management
 - Permission management
 - Activity tracking
 - User profile management
-

2. Lead Management

Features

- Lead creation and assignment
- Lead import/export
- Lead scoring using AI
- Duplicate lead detection
- Lead source tracking
- Follow-up reminders
- Lead status management

AI Features

- Lead conversion probability prediction
 - Automated lead qualification
 - Smart lead prioritization
-

3. Contact Management

Features

- Customer database

- **Contact history**
- **Communication logs**
- **Document attachments**
- **Customer segmentation**

AI Features

- **Customer behavior analysis**
 - **Customer engagement scoring**
-

4. Sales Pipeline Management

Features

- **Deal creation**
- **Opportunity tracking**
- **Sales stages management**
- **Revenue forecasting**
- **Quote generation**
- **Proposal management**

AI Features

- **Sales forecasting**
 - **Deal closure prediction**
 - **Recommended next actions**
-

5. Marketing Automation

Features

- **Email campaign management**
- **SMS campaign management**
- **WhatsApp integration**
- **Landing page creation**
- **Campaign analytics**

AI Features

- **Campaign performance prediction**
 - **Personalized email generation**
 - **Customer targeting recommendations**
-

6. Customer Support Module

Features

- **Ticket management**
- **Complaint tracking**
- **SLA management**
- **Knowledge base**
- **Chat support**

AI Features

- **AI chatbot support**
 - **Ticket categorization**
 - **Automated response suggestions**
 - **Sentiment analysis**
-

7. Task & Activity Management

Features

- **Calendar integration**
- **Meeting scheduling**
- **Task assignment**
- **Follow-up tracking**
- **Notifications**

AI Features

- **Smart task recommendations**
 - **Meeting summary generation**
-

8. Workflow Automation Engine

Features

- **Drag-and-drop workflow builder**
- **Trigger-based automation**
- **Email automation**
- **SMS automation**
- **Approval workflows**

Automation Examples

- **Auto-assign leads**
- **Send follow-up emails**
- **Create tasks automatically**
- **Escalate support tickets**
- **Customer onboarding workflows**

9. AI Virtual CRM Assistant

Features

- Natural language queries
- Voice command support
- CRM data search
- Report generation

Examples

- "Show this month's sales report"
- "List hot leads"
- "Generate customer insights"

10. Analytics & Dashboard

Features

- Real-time dashboards
- Sales reports
- Revenue analytics
- Lead conversion reports
- Employee performance tracking

AI Features

- Predictive analytics
- Trend forecasting
- Business growth recommendations

11. Document Management

Features

- Contract management
- Proposal storage
- E-signature integration
- Version control
- Cloud storage

12. Communication Hub

Features

- Email integration

- **WhatsApp integration**
 - **SMS integration**
 - **Call logs**
 - **Video meeting integration**
-

AI & Machine Learning Components

Predictive Models

- **Lead Scoring Model**
- **Customer Churn Prediction**
- **Sales Forecasting Model**
- **Revenue Prediction Model**
- **Customer Lifetime Value Prediction**

Generative AI Features

- **Email generation**
 - **Proposal generation**
 - **Meeting notes generation**
 - **Sales pitch generation**
 - **Customer response drafting**
-

Integrations

- [Google Workspace](#)
 - [Microsoft 365](#)
 - [WhatsApp Business Platform](#)
 - [Stripe](#)
 - [Razorpay](#)
 - [Twilio](#)
-

Recommended Technology Stack

Frontend

- **React.js / Next.js**
- **Tailwind CSS**
- **TypeScript**

Backend

- **Node.js + Express.js**
- **Python (AI Services)**

Database

- PostgreSQL
- MongoDB

AI Technologies

- OpenAI API
- TensorFlow
- Scikit-learn
- LangChain
- Vector Database (Pinecone/Weaviate)

Cloud

- AWS / Azure / Google Cloud

Advanced Features (Enterprise Edition)

- Multi-Tenant CRM
- White Label CRM
- Mobile App (Android & iOS)
- AI Voice Calling Assistant
- Customer 360° View
- Business Intelligence Dashboard
- ERP Integration
- HRMS Integration
- Inventory Management Integration

DATE SUBMIT: 09/07/2026

This specification is suitable for a final-year academic project, startup MVP, or enterprise-grade AI CRM platform comparable to Zoho CRM, with modern AI automation and predictive analytics capabilities.

Terms & Conditions

(Confidentiality, Data Protection & Intellectual Property)

1. Confidential Information:

The Intern acknowledges that all project proposals, client data, financial information, technical documentation, source code, business strategies, credentials, and related materials disclosed during the internship constitute Confidential Information and remain the sole and exclusive property of the Company.

2. Non-Disclosure Obligation:

The Intern shall not, directly or indirectly, disclose, reproduce, distribute, transmit, publish, upload, or share any Confidential Information with any third party without prior written consent of the Company.

3. **Restricted Use:**

Confidential Information shall be used solely for authorized internship purposes. The Intern shall not use such information for personal gain, academic submission, freelancing, portfolio display, or engagement with any external entity without written approval.

4. **Intellectual Property Rights:**

All work products, including but not limited to proposals, reports, designs, software code, databases, presentations, and related materials developed during the internship shall vest exclusively in the Company. The Intern hereby assigns all rights, title, and interest in such work to the Company.

5. **Data Protection & Security:**

The Intern agrees to comply with all data protection and information security policies of the Company and shall immediately report any unauthorized access, disclosure, or suspected breach.

6. **Return & Deletion of Data:**

Upon completion or termination of the internship, the Intern shall return or permanently delete all Company data and confirm compliance in writing.

7. **Survival Clause:**

The obligations under this section shall survive the termination or completion of the internship.

8. **Breach & Remedies:**

Any violation of these terms shall constitute a material breach and may result in immediate termination, recovery of damages, and initiation of civil or criminal proceedings under applicable laws.
